

Amphibians and reptiles found within East County MSCP Study Area

PowerPoint presentation by:
Brad Hollingsworth, San Diego Natural History Museum

Ensatina klauberi
(Ensatina eschscholtzii klauberi)
Large-blotched Ensatina

East county MSCP area is core habitat for species. Oak and pine forest inhabitant.

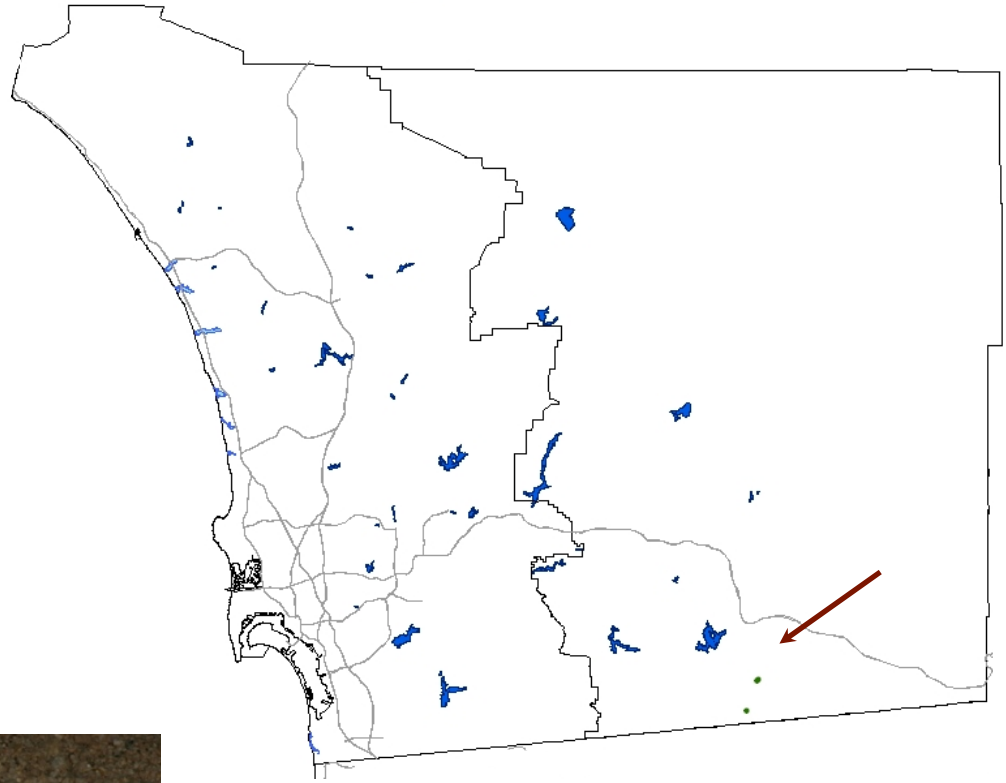

Green Dots: Museum records and observations

Gambelia copei
Cope's Leopard Lizard

Population in southern San Diego County entirely within the East county MSCP area. Majority of distribution occurs in Baja California. Population represents the only U.S. occurrence of species.

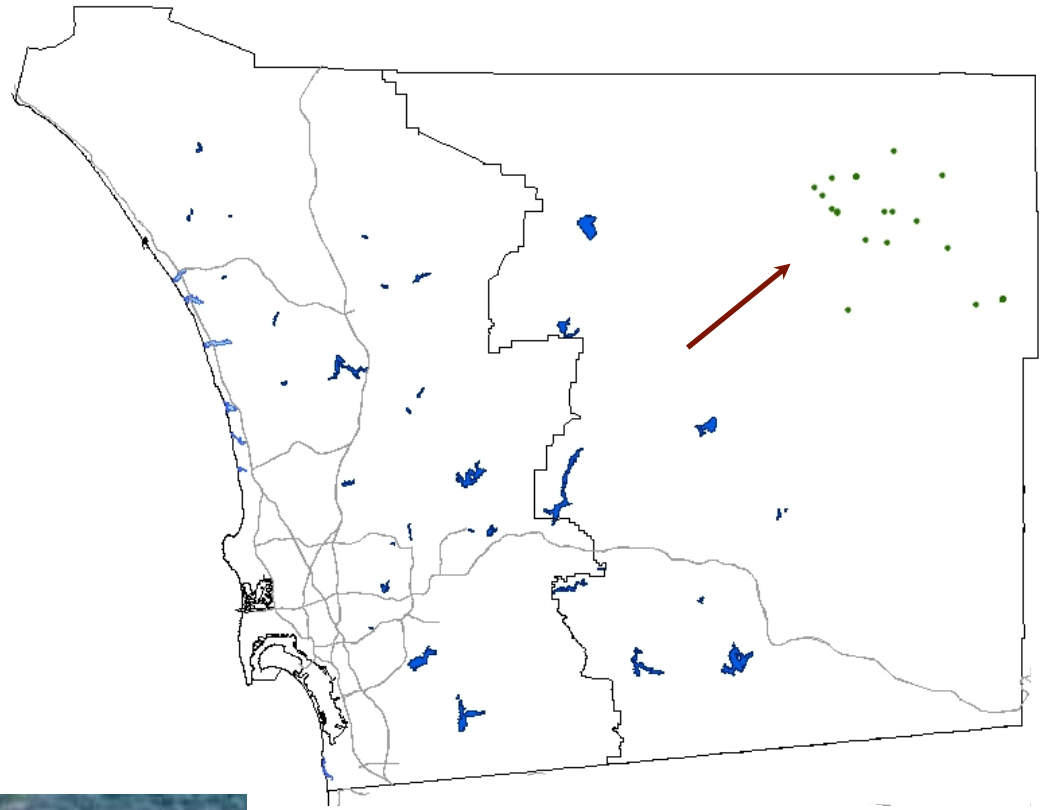

Green Dots: Museum records and observations

Phrynosoma mcallii
Flat Tailed Horned Lizard

Populations to desert regions of East county MSCP area. Habitat specialist on wind-blown sands and adjacent creosote bush desert. Entire species distribution confined to the Lower Colorado Desert.

Green Dots: Museum records and observations

Rana muscosa
Mountain Yellow-legged Frog

Only population in San Diego County on Palomar Mountain extirpated. Represented the southernmost population of species. Possibility that it is still present in remote regions of Palomar Mountain.

Green Dots: Museum records and observations

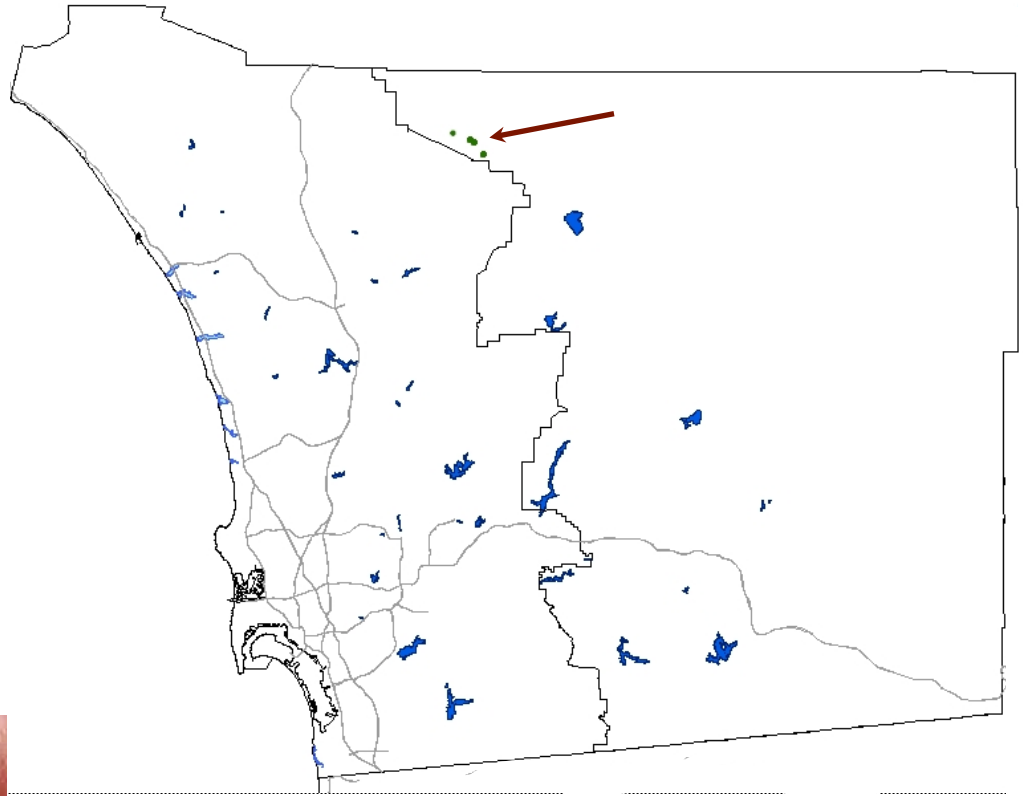

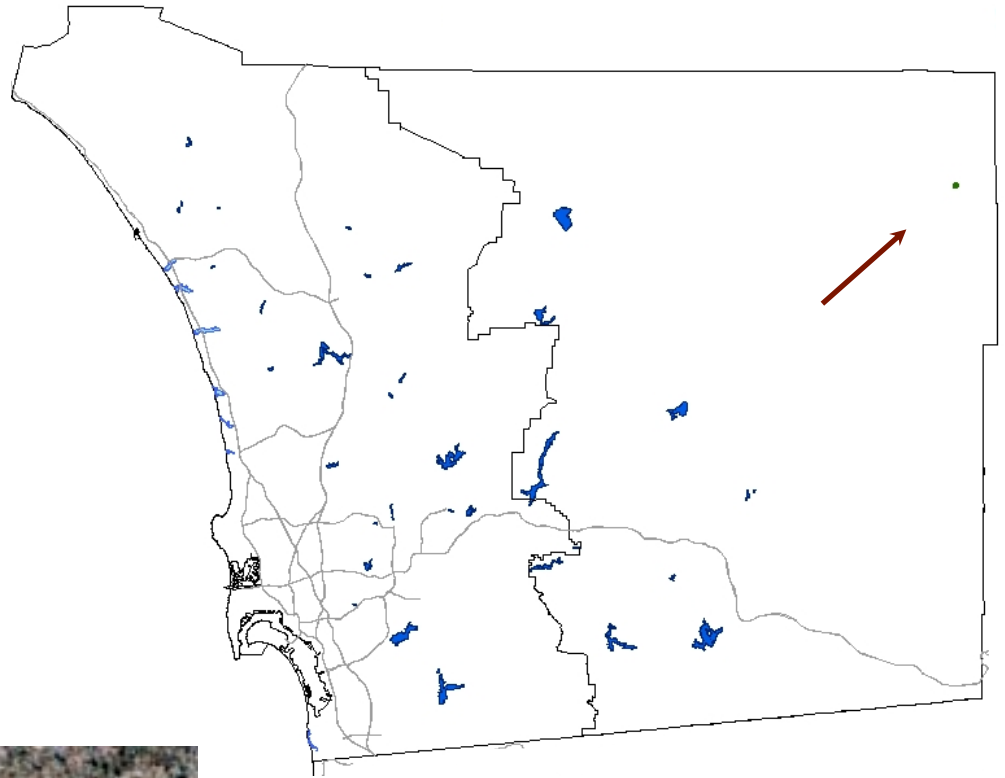

Photo from Todd Battey

Xantusia gracilis
Sandstone Night Lizard

Small, isolated population found completely within the confines of Anza Borrego Desert State Park.

Amphibians & Reptiles

Other amphibians and reptiles within East county MSCP area.

Bufo californicus
Arroyo Toad

Taricha torosa
California Newt

Amphibians & Reptiles

Other amphibians and reptiles within East county MSCP area.

Actinemys marmorata
Southwestern Pond Turtle

Crotalus ruber
Red Diamond Rattlesnake

Amphibians & Reptiles

Other amphibians and reptiles within East county MSCP area.

Eumeces skiltonianus
Coronado Skink

Sceloporus vandenburgianus
Southern Sagebrush Lizard

Amphibians & Reptiles

Other amphibians and reptiles within East county MSCP area.

Phrynosoma coronatum
Coast Horned Lizard

Aspidoscelis tigris
Western Whiptail

Amphibians & Reptiles

Other amphibians and reptiles within East county MSCP area.

Aspidoscelis hyperythra
Orange-throated Whiptail

Lampropeltis zonata pulchra
San Diego Mountain Kingsnake
